I am able to push the limits of what is possible in Front End web design. I am enthusiastic, friendly and driven coder who can bring to the table pro-activity, collaboration, new ideas and mature opinions. Right now, I want to join a company where I will have an opportunity to learn more and improve my skill sets in the ever-evolving medium that is the Internet.

## PERSONAL PROJECTS

### Food Ordering app

- I built the app from the scratch using **HTML,CSS** and **JavaScript**.

### Color Scheme

- This app allows you to pick any color and mode and it generate different schemes of the color with the Hex value. built with **HTML,CSS,JavaScript** and **API**

### Personal Dashboard

- This app is a chrome extension built with my knowledge of APIs. It can be used as a default landing page for chrome browser. It shows the current time, crypto currency price, random quotes and the current weather in your location. Built with **HTML,CSS** and **JavaScript**

### Leads Tracker

- This is a chrome extension which saves tabs/url. This helped me save url of my potential leads. It was built with **HTML,CSS** and **JavaScript**.
